

RON & LISA'S BEST AIR PURIFIER PICKS

We take 25,000 breaths a day, but it's often dirty air we're breathing in. Asthma rates are on the rise affecting over 24 million people and over 50 million Americans suffer from allergies today. Implementing air purification - at home, work or in your vehicle – is essential today.

HOME

IQAIR \$\$\$

The HealthPro Plus is the #1 rated room air purifier for allergies and asthma. It contains IQAir's patented HyperHEPA filter to capture airborne particles down to 0.003 microns with a guaranteed minimum efficiency 99.5%. Ultrafine" particles (0.1 microns or smaller) are the most harmful to one's health and of particular concern for asthma sufferers who are often sensitized to molecular irritants, as well as allergens. The Health Pro Plus effectively filters up to 1,000 sq. ft. and features four advanced filtration technologies, including a V5-Cell advanced filtration of gases and odors.

AUSTIN AIR \$\$

The HealthMate 400 (cleans 1,500 sq. ft.) includes a 4-stage filtration system highly effective at removing particles and gases, including volatile organic compounds (VOCs) with about 15 lbs. of activated carbon and zeolite. Filters viruses and bacteria using 60 sq. ft. of True Medical Grade HEPA to remove 99.97% of all particles larger than 0.3 micron. Color choice of: White, Sandstone, Black or Silver. Includes: solid steel construction, non-toxic powder-coated paint. Made in the USA. Average cost to run: 1 cent per hour. Also available in a Jr. version, The HealthMate 200 (cleans 700 sq. ft.).

DYSON PURE COOL \$\$

Is a whole room purifier and purifying fan with a remote control. It senses pollutants in real time and reports air quality levels to you via the Dyson Link app. It then captures pollutants with 360° sealed HEPA. The fully-sealed filter system combines an activated carbon filter to remove gases, and a Glass HEPA filter that captures 99.97% of microscopic allergens and pollutants as small as 0.3 microns. Filters 400 sq. ft. Certified asthma and allergy friendly by the Asthma and Allergy Foundation of America.

ALLERGIES & ASTHMA

AUSTIN AIR \$\$\$

The Allergy Machine filters up to 1,500 sq. ft. (Jr. version filters 700 sq. ft.) It effectively removes allergens, asthma irritants, sub-micron particles, chemicals & noxious gases, providing immediate relief for asthmatics and allergy sufferers. Includes a 4-stage filtration system. Contains HEGA (High Efficiency Gas Arrestance), providing an extremely large surface area for adsorption of chemicals, gasses, viruses and bacteria. Filters viruses and bacteria using 60 sq. ft. of True Medical Grade HEPA to remove 99.97% of all particles larger than 0.3 micron. Color choice of: White, Sandstone, Black or Silver. Includes: solid steel construction, non-toxic powder-coated paint. Made in the USA. Average cost to run: 1 cent per hour.

BABY

AIR OASIS \$

The Air Oasis Air Angel is perfect for you little angel's nursery or playroom. It boasts energy-efficient technology that purifies and sanitizes the air and surfaces in rooms up to 250 sq. ft.

Six technologies in 1- Nano AHPCO (advanced hydrated photo catalytic oxidation) technology, germicidal UV light, washable stainless-steel filter, and Ion generator. Removes up to 99% odors, destroys up to 99% germs, eliminates up to 99% air allergens.

AUSTIN AIR \$\$

The Baby's Breath is the Jr. version of the Allergy Machine (see above) and contains about 6.5 lbs. of activated carbon and zeolite to remove chemicals, gases and odors and 30 sq. ft. of True Medical Grade HEPA to remove 99.97% of all particles larger than 0.3 microns. Color choices for a nursery include: pink or blue.

PET OWNERS

AUSTIN AIR \$\$\$

The Pet Machine is designed specifically for pet owners and uses HEPA technology to trap airborne dust and dander and remove both the harmless and potentially harmful pet odors and particles. 4-stage filtration captures viruses and bacteria using 60 sq. ft. of True Medical Grade HEPA to remove 99.97% of all particles larger than 0.3 micron. Highly effective at removing particles and gases, including volatile organic compounds (VOCs) from the air with about 15 lbs. of Impregnated Activated Carbon and Zeolite. Filters 1500 sq. ft. Color choice of: White, Sandstone, Black or Silver. Includes: solid steel construction, non-toxic powder-coated pain. Made in the USA. Average cost to run: 1 cent per hour.

CAR/AUTO

AIR OASIS \$

The Air Oasis Mobile Sanifier is a small air purifier that cleans the air in areas up to 250 sq. ft.. It eliminates the odors from carbon-based allergens, cigarette smoke, and volatile organic compounds (VOCs). 6 technologies in 1: Nano AHPCO (advanced hydrated photo catalytic oxidation) technology, germicidal UV light, washable stainless-steel filter, and Ion generator. Removes up to 99% odors, destroys up to 99% germs, eliminates up to 99% air allergens. Comes with a DC adapter, so it can be plugged into your mobile home, car, or truck. Ideal for vehicles, utility rooms, bedrooms, offices, hotels, RVs, boats, and more.

WHOLE HOUSE

IQAIR \$\$\$\$

The Perfect 16 is rated the #1 whole house air purifier and fits directly into your HVAC system and comes with a lifetime limited warranty. Great for those with allergies and asthma. Eliminates allergens, bacteria, dust and smoke. HyperHEPA filtration is proven and certified to filter ultra-fine particles; at least 95% of 0.3 or microns and larger and 75% of .003 microns and larger are removed; it is the world's first MERV 16 rated filter system for home use.
